

Middle School Affiliation

Through the alternative Middle School Affiliation program middle schools may affiliate the entire chapter for one set price. This allows all students enrolled in Family and Consumer Sciences Courses at any time during the year to participate as fully accredited members with all the rights and benefits of membership accorded to members who affiliate on an individual basis. The cost is \$450.00 National Dues and \$180.00 State Dues - the equivalent of 60 members affiliating on an individual basis. This price is a bargain if the teacher has 100 or more students per year as all are considered members and may participate in STAR Events and all other FCCLA programs. Contact Vickie Rundbaken (706) 742-5816 at the State Office for more details about this program.

Urban School Affiliation

An urban school district located within the corporate limits of a city with a core population of 300,000 or more can enroll all of its students currently or previously enrolled in a Family and Consumer Sciences education class. All of the eligible students in all the schools in the district become fully accredited members with all the rights and benefits of membership.

The National Affiliation fee is \$4500.00 per school district.

The State Affiliation fee is \$1500.00 per school district.

This is equivalent to the individual dues for 500 members.

This method is extremely cost effective and easier for those in qualifying school districts. If you are interested in beginning the Urban Affiliation program in your school district please provide the following information the State office:

Your Name

Your School

Your Phone Number/FAX/E-mail

Name of the Technology /Career District Supervisor

Address of District Supervisor

Phone number/FAX/Email of District Supervisor
